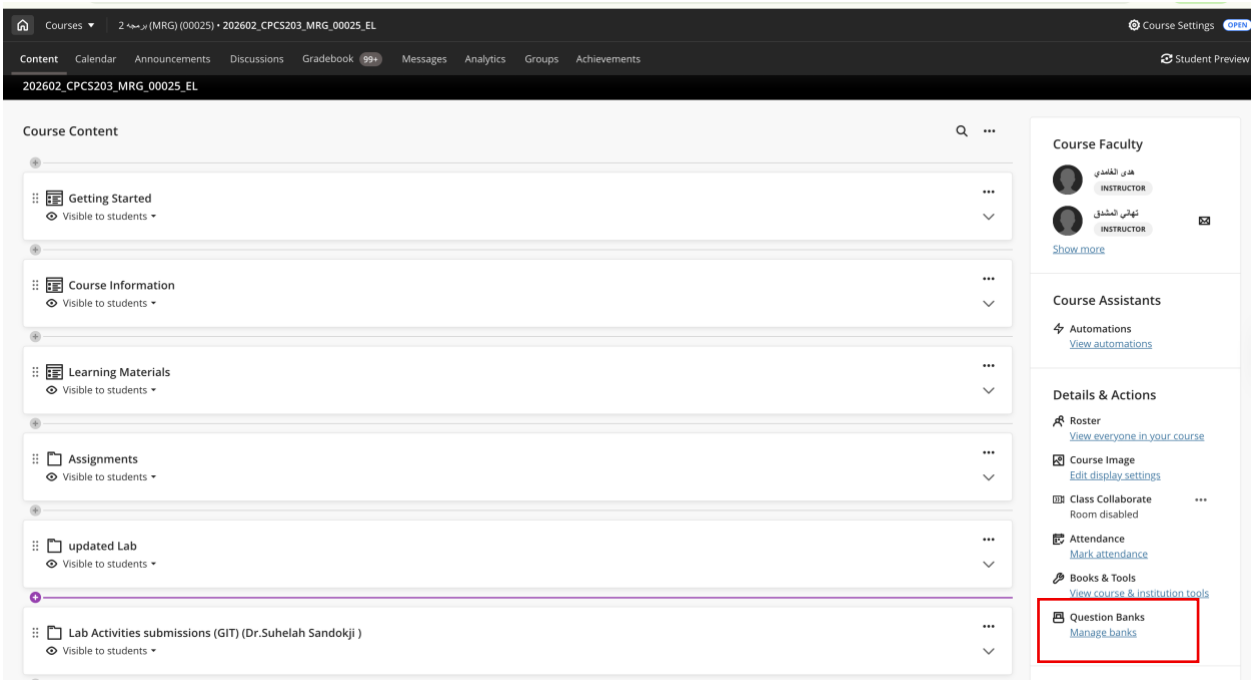
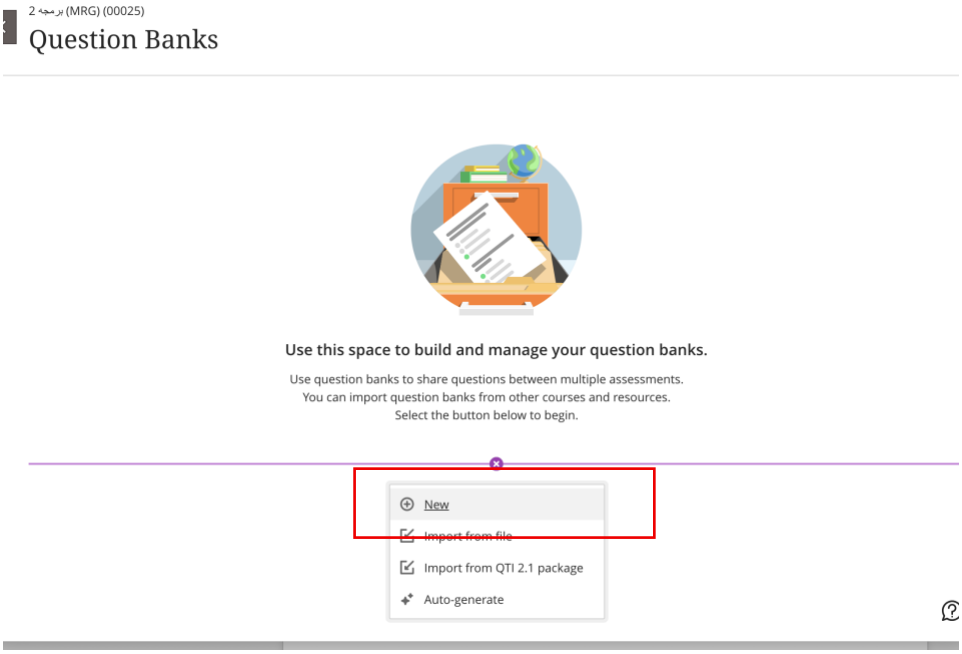
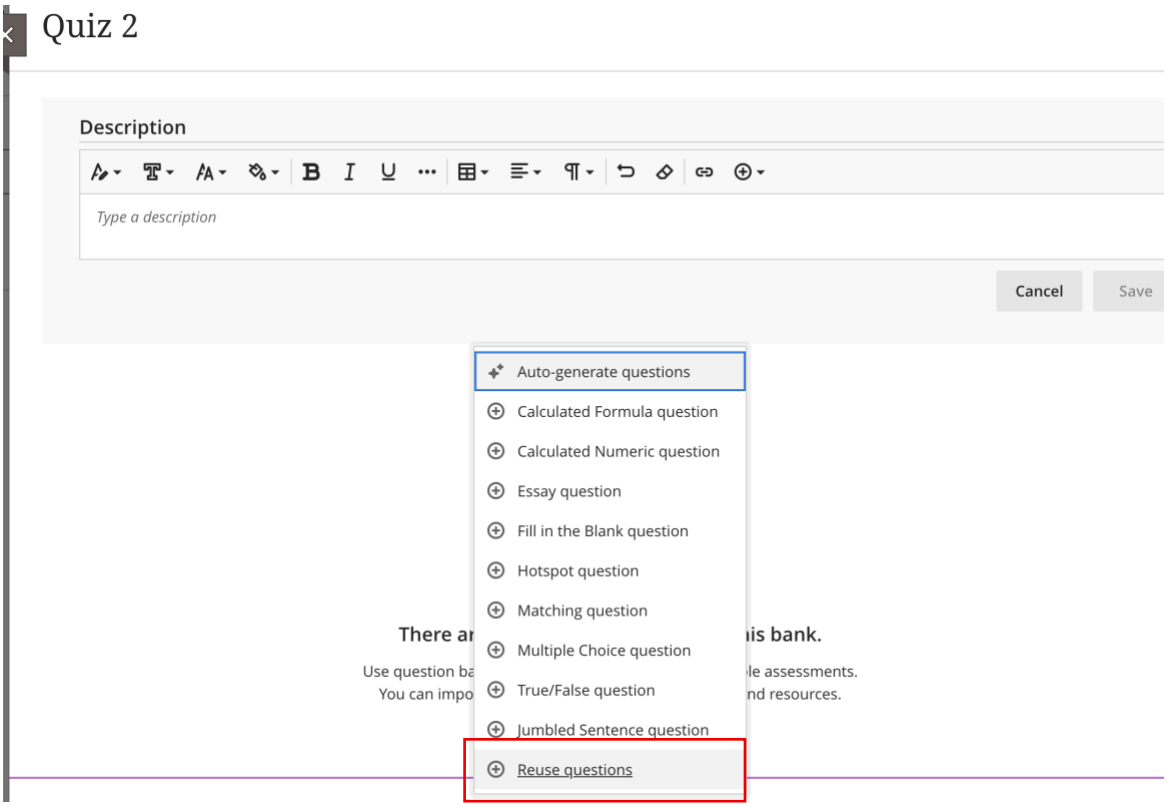
1- Create the quiz as you usually do and give it a distinct name.
2- Under Question Banks in the right pane click “Manage banks”



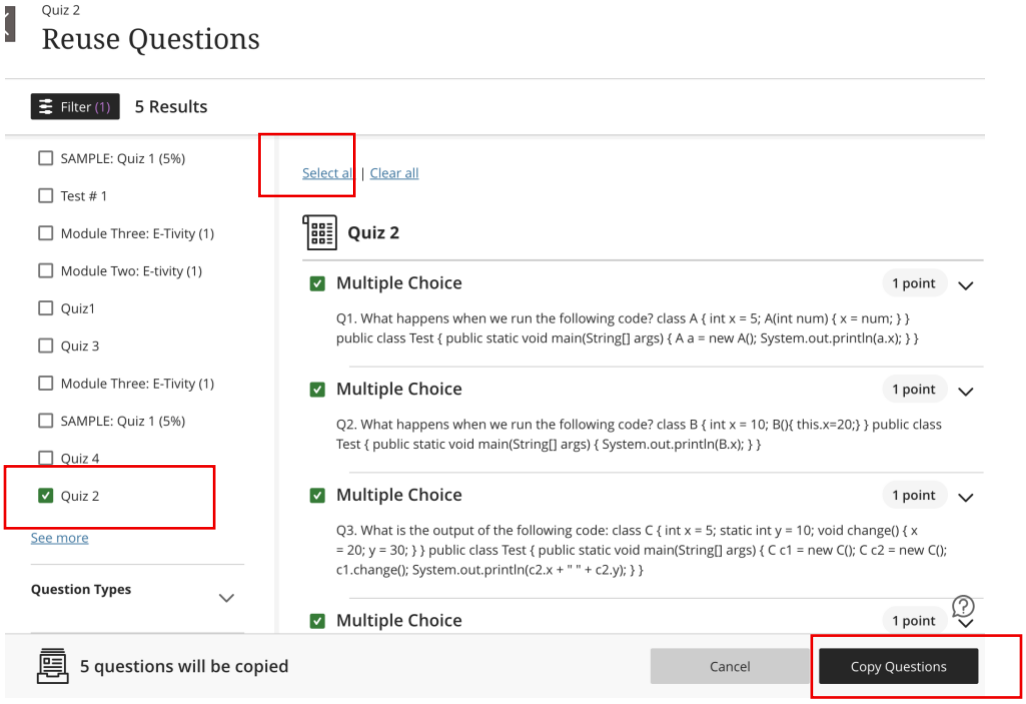
3- Click the purple line, then choose “New”



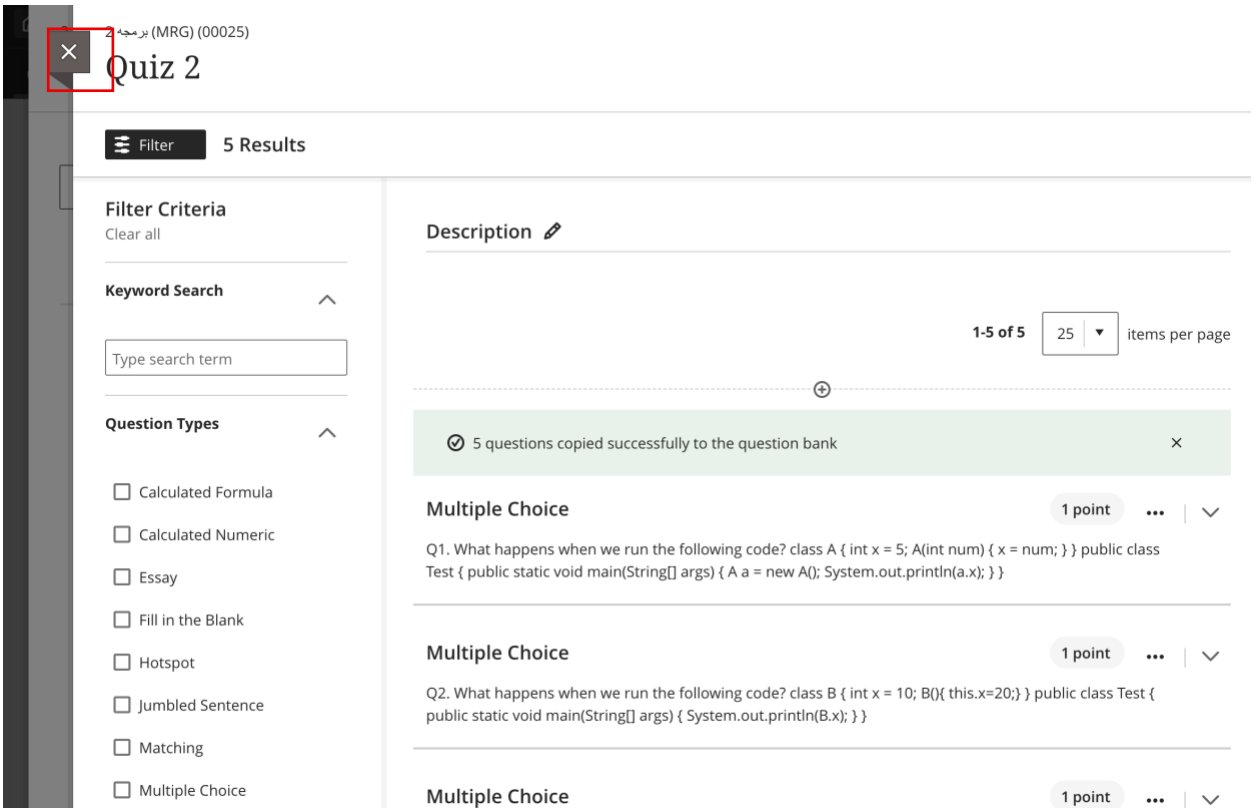
4- From the menu choose “Reuse questions”



5 – In the left pane, choose the quiz you have created and choose all the questions you want to share, or just click select all, then click “Copy Questions”



5- Leave the question bank by clicking “X” once you get the message the questions have been successfully copied.



6- You will see the question bank in the main question bank page. Click the three dots to the right, and choose “Export”
